

## SUICIDE PREVENTION

Present Generation is fast in anything and everything, they take decisions very quickly without hesitation and without thinking of the Consequences. They follow the same kind of spirit in their life also. Divorce and Suicide have become a common phenomena among this generation.

This younger generation are so sensitive in all aspects and they commit suicide easily for no reasons. In view of this, Adhi College of Engineering and Technology had decided to give psychological counselling to the younger generation. So, joined hands with 'sneha', which is very famous in India, giving counselling to prevent suicide all over India and convened an awareness program, in our college.

It was conducted in the Adhi College premises on 10.09.2015, the day which was the World Suicide Prevention Day, which is celebrated all over the world, every year.

Mrs. Sujatha Maran, CEO, Adhi College of Engineering and Technology initiated the meeting and also presided over. Dr. A. Devaraju, the Principal, welcomed the gathering and the volunteers from sneha forum gave their valuable speeches and advices to the students. The students were initiated to ask their doubts. The questions raised by the students were cleared.

The management of Adhi College of Engineering hopes that this program would bring an ultimate impact on our students.
