International Conference on Cognitive Computing & Informatics Systems (ICCCIS – 18) 13-14 December 2018

The International Conference on Cognitive Computing & Informatics Systems (ICCCIS-18) has organized by the Department of Electronics and Communication Engineering, Adhi College of Engineering and Technology, Chennai. This international conference aims at promoting high quality research by bringing together an international Community of researchers and practitioners from academia, researchers and industry. It is a forum to communicate and discuss various research findings and innovations in themes of “SMART & INNOVATION TRENDS FOR NEXT GEN IoT & COMPUTING”. These emerging areas provide scope for research and this conference will help to address various challenges in these areas. This conference will also provide opportunities for the researchers to exchange innovation ideas and establish research relations worldwide. The technical sessions of the conference will consist of key note address and original contributory papers reporting theoretical and experimental research, development design, testing in all three tracks namely, Cognitive Computing and intelligence Systems.

The conference began with welcome address by Dr.K.Sakthisudhan, Head of Electronics and Communication Engineering department, followed by special address from Principal, Dr. A. Devaraju. Then, the inaugural talk has delivered by Dr. JAFREEZAL B JAAFAR Professor & Dean, Faculty of Science & Technology, University Technology PETRONAS, Malaysia. He has delivered the research guideline about the Emerging need of IoTs in Oil and gas industry. The robotics devices used in these industries interconnected with IoTs. And vote of thank as the final.
