**Organizer: Mr. R. Karthick.**

**Attending Students: I Year EEE**

#### **About the visit to 400/230 KV Power Corporation of India Ltd, Sriperumbudur:**

- ✓ On 16.03.2018 the students of I year (60 students) along with three faculties have visited the 400/230 KV Power Corporation of India Ltd.
- ✓ We have reached the power grid corporation at 10.30 a.m. and an Assistant Engineer started giving lectures about the entire module held in front of the office.
- ✓ Then students were brought to the site and were explained about each and every aspect of receiving(400KV) and distribution power (230KV and various ranges required by the customer) and converted power is distributed to the various main cities and industrial in Chennai based on their requirement.

#### **Students Feedback:**

- ✓ the students were greatly understood the working of some measuring instruments, protective devices and transformer practically.
- ✓ Therefore, our students have definitely got some industrial exposure in this visit to Power Grid Corporation of India Ltd. And we personally thank the officials of power Grid Corporation for their extended interest and support in teaching and enhancing the students in the area of power grid.
