

REPORT ON INDUSTRIAL VISIT to SAKTHI TRANSFORMERS

Date of Visit: 06-08-2016

ON 06th August 2016 our department has organized a one day industrial visit to Sakthi Transformers, Chennai

A team of 55 students with two faculty members have taken part of industrial visit .we have assembled in college campus at 8.00am and we started our journey at 10.00am by our collage bus. It took about one hour to reach the company as soon as we reached the company we were guided by Mr. T.K.RAMAJAYAM, senior engineer.

- The Design and Mathematical analysis were practically absorbed from R&D department
- The Core construction and winding methods where demonstrated to the students from the production line,
- From the Testing line the following testes were demonstrated to the students

1. Short circuit test
2. Impulse test
3. Voltage test
4. No load current test
5. Accuracy test
6. Power consumption test

Students from II year

Students from III year at Sakthi Transformers
