

### Performance Of The Institution 2018-2019

Adhi college of Engineering and Technology initiated entrepreneurship development activities for the students to develop their entrepreneurship skill, awareness, ideas and availability sources.

It plays vital role in developing student's skill, also we provide the incubator cell to improve their entrepreneurship skill The Entrepreneurship development will be review and enhances the participation of the students, with the regular meeting with EDC members and management through IQAC.

This develops the market survey abilities. EDC improvises its activities by conducting suggestion meeting with its stakeholders, parents and alumni.
