Memorandum of Understanding ("MOU") is made on **20/02/2023, Monday** between **Sri Academy**, No. 04, Pasumai Nagar, Pudukottai main road, Near Airport, Trichy-620007 (hereafter referred to as "Sri Academy,") and **Adhi College of Engineering & Technology**, No.6, Munu Adhi Nagar, Sankarapuram, Puliambakkam Post, Kanchipuram Dist. Tamilnadu 631 605 (hereafter referred to as "Adhi College of Engineering & Technology"). This MoU is valid for a period of **THREE** years from the date of signing.

NOW THIS AGREEMENT WITNESSETH-

- With the rapid growth of the Indian economy, one of the most important challenges for the industry is to ensure availability of trained personnel. As India integrates further with the world economy, the challenges and opportunities are bound to increase college students are at the forefront of education. However, there is an urgent need for expanding the reach and scope of education in this area as India's competitive position in world trade is critically dependent on the quality of human resources.
- Technology today provides innovative avenues for disseminating information and providing education with necessarily relying only on a brick-and-mortar infrastructure.
- SRI ACADEMY is focussed on imparting skills in specific and unique areas where there is a significant demand and requirement of quality education. Accordingly, SRI ACADEMY would like to collaborate with Adhi College of Engineering & Technology to develop and deliver Skill enhancement Training programs that are already available with SRI ACADEMY. These courses designed to ensure that skill gaps are bridged but seeds of innovation are also sown for industry in India.
- In these programs, the content and module has been designed in focussing to develop the skill enhancement for the students to make the industry ready for them by the time of completion of this training program. We will also assist the students by providing the placement support from various domains.

- The program will be structured as a short term Training program for all Years. It will be a Brick and Mortar Delivery System supported by the faculty.

ROLES & RESPONSIBILITIES

Responsibilities of SRI ACADEMY:

- Deploy faculty in development of the program content in brick and mortar format by leveraging the vast content library of SRI ACADEMY.
- Manage the student enrolments with the support of respective faculty.
- Develop Frequently Asked Questions (FAQ) for the programs along with faculty and update it based on live queries of the students during the delivery of the classes. These FAQs will be used by SRI ACADEMY to respond to queries of the students by faculty in the training hall. This will help in clarifying all doubts that students may have about the program content and will increase student satisfaction.
- Provide details to the students enrolled, learning progress of students enrolled and details of candidates completing the program requirements including final examination.
- Due to this training program we ensure that we will give 100% positive attitude for the students, placement assistance and best academic results.
- SRI ACADEMY also make Arrangements to Organize OFF Campus and ON-Campus interviews if your kindness may permit us to work along with Adhi College of Engineering & Technology.

Responsibilities to Adhi College of Engineering & Technology:

- Provide space for setting up the infrastructure
- Provide desired students with subject to the approval from the college.
- Need to give the committed number of students who are going to get trained and eligible criteria for the same.
