

Department of Mechanical Engineering have organized webinar on “Latest Advancements in Internal Combustion Engines” on 30-09-2022 through online mode. Dr. M. Annie Jenifer, Assistant Professor, VAIAL Department, VIT, Vellore, has joined through online to share her knowledge.

Turbocharging

- ▶ When turbochargers were first introduced in road cars back in the 1970s, they were usually only associated with sports cars.
- ▶ Nowadays though, turbochargers have become an essential component in improving efficiency, lowering fuel consumption and reducing emissions.
